

November 2008

Dear CLA Supporters,

This Saturday will be a workday. I will be there 8:30-4. Lunch will be served. If you think you can come, an RSVP would help with the lunch count. But don't let that keep you away Saturday!

We have lots of tasks for those without construction skills. Please pitch in, even if you have only a couple of hours to spare.

We will need to split some more firewood. If you have splitting tools, please bring them.

My cell: 630-414-5434

IHS,

Roger Blomquist

**High priority tasks:**

- \* Cleaning
- \* Get a photograph for the volunteer web site (Roger)
- \* Fix the front hallway and basement surveillance cameras. (Ray/Chuck)
- \* Finish splitting the firewood for the Gala. (Rob)  
    Blackburns, please your bring log-splitter again.
- \* Install green coil trim around the main entrance (Todd and/or Jack)
- \* Paint the handrails green. (Paint is in basement). (Rob)
- \* Unjam the shredder.
- \* Spray antibiotic solution on Dryvit green streaks. (Anyone)
- \* Replace deck flashing with green coil. (Todd and/or Jack)
- \* Install main entrance ceiling and move lights as necessary. (Todd and/or Jack)
- \* Shore up sagging shelves in the tool closet. (Lem or Ron and Roger)
- \* Get the correct phone number on the sign. (Chuck)
- \* Basement furnace repair (Pete Simon?)
- \* Work on Savina window draft.
- \* Fix the chair in the basement (Roger)
- \* Look at caulking opportunities outside science room west end windows

**Cherry-picker jobs (nearly anyone):**

- \* Fix south side gutters so they do not allow water on the wall
- \* Seal northwest corner gutter leaks
- \* Clean the gutters and seal other leaks
- \* Spray antibiotic solution on high-up Dryvit green streaks

**Other lower priority tasks:**

- \* Once the deck leakage problem is solved, install the new main entrance outdoor "ceiling". Todd will get green coil, and fasteners for the Ondura roofing.
- \* Adjust the room 204 door so it latches. Repair the small mower and weed-wacker engines.

- \* Reroute basement furnace exhaust out south wall (west end), and seal the chimney in the basement.
- \* Seal more pavement cracks in the parking lot. (anyone)
- \* Replace 2nd floor windows facing deck with glass block.
- \* Recycle obsolete computers in the basement. (Raabe must sort and label, but anyone can take)
- \* Install shelves and doors (opening: 76.25" wide by 83.375" high) in 2nd floor hallway west nook. Make sure storage system is sized for the closet. Pending Thrivent \$.
- \* Refinish the stairway undersides.
- \* Paint the front entrance, after water ingress has been fixed.
- \* Fitness area drywall finish, priming, and painting.
- \* Miscellaneous interior painting. (Kathy)
- \* Install gutter and downspout on west end, north side of the main entrance ramp.

Materials are on site.

- \* Clean the rest of the basement in the sewer cleanout plug area.
- \* Inspect grout on glass block window (west end, 2nd floor).
- \* Split classroom lighting circuits.
- \* Fix the wall leak behind the shelves in the basement closet.
- \* Get basement leak contractor to re-fix leak under the stairs.
- \* Repair basement closet door lock and the other door's hinge.
- \* Replace boys and girls bathroom glass block windows
